**PETITION TO MAKE SPECIAL
BASED ON APPLICANT'S HEALTH (37 CFR 1.102 (c))**

OFFICE OF PETITIONS

The applicant in the above-identified invention hereby petitions the Commissioner of Patents and Trademarks to make the above application special and advanced out of turn for examination. The granting of this petition is appropriate under 37 CF 1.102(c) on the basis of the applicant's health. Enclosed is a letter from the applicant's primary care physician, indicating that the state of health of the applicant is such that he might not be available to assist in the prosecution of the application if it were to run its normal course.

Respectfully submitted,

Ramon L. Pizarro, Reg. No. 37207

RE: HUDGENS, William

To Whom It May Concern:

Mr. Williams Hudgens is currently under my care as I served as his Primary Care Physician. Mr. Hudgens has been under my care for several years now and suffers from severe interstitial lung disease, which has been progressively worsening over the last year to 2 years, and clearly may shorten his life expectancy. Given his medical history and its progressive nature, Mr. Hudgens had an application to be compromised from this perspective as his health is such that he may not be available to assist in the prosecution of the application, if it were to run its normal course.

If there are further questions that I can answer in this regard, please do not hesitate to contact me.

Sincerely,
